

客户名称	南非ACDC
公司型号	EA-100/EA-120/EA-150
客户型号	EA-100/EA-120/EA-150
说明书尺寸	290*210mm
说明书材质	双铜105g

Pantone 300C

INSTALLATION CAUTIONS:

- 1.Please confirm before start:
- 2.Wiring is correct, and the equipment's wire connection is firm.
- 3.Electrical safety device is connected correctly and adjusted to proper position.
- 4.The wire and wire joints are insulative and water resistant.
- 5.The vane wheel's rotation is right.
- 6.There is no abnormal vibration.
- 7.If the wire installation device trips, please cut off the power supply. Before start later, please check all installation.

MAINTENANCE CAUTIONS:

- 1.Before maintenance of the blower, though the blower's switch is off, please cut off the main power supply in case of others' delivery of electricity by mistake.
- 2.Check the equipment and its working environment regularly, in case of too much dust stocked on vane wheel, protective screening, which brings danger or cause the product's working life.
- 3.Please be greatly careful while washing, in case of destroying vane wheel's balance.
