

Product SPECIFICATION SHEET

230VAC 6/12/24VDC 15/8A 8 STAGE BATT. CHARGER GEL/AGM/LIFEPO

8 stage battery charger

8 stage charging state: 1) pulse, 2) soft start, 3) constant current, 4) constant voltage, 5) analysis, 6) complement, 7) floating charge, 8) maintaining.

Battery charger/Battery maintenance

Input voltage: AC 220~240V/50Hz

Charging current: auto or by manual selection

6V mode 4A/8A/15A for selection

12V mode 4A/8A/15A for selection

24V mode 2A/4A/8A for selection

With fast charging Max output current up to 12V/20A

Output voltage: DC 6V/12V/24V switch by manually

Multiple battery can be choosing mode

Protection: reverse connection, overheating protection, short circuit protection; overcharging protection

Can identify non-rechargeable batteries.

Battery type: lead-acid battery, Gel. AGM, Lifepo4.etc battery

BMS unlocking function for Lithium battery

Suitable for motorcycles, electric bicycles, cars, trucks etc.

ideal for charging 6V/12V/24V lead acid batteries, AGM, Lifepo4 with a capacity range up to 250Ah

fan cooling

Warranty: 12 months
