

FNC-.....

APPLIANCE TRANSFORMER

Features:

THG-type step-up & down transformer is specially designed for such electronic equipment whose rated AC voltage different from that of the local netvoltage. They are safe for use within the rated **Features:**

voltage range

Input Voltage: AC110V or 220V 50/60HZ

With fuse protector

Output Voltage: AC110V or 220V 50/60HZ

Built-in AC110V/220V voltage selector switch
