

TRANS-MESSENGER

GPRS and GSM COMMUNICATION MODULE

Specifications

Power Supply	: 8 to 32 V $\overline{\text{---}}$
Power Consumption	: 240 mA @12V $\overline{\text{---}}$.
Communication	: GPRS server, GPRS client and SMS
Positioning	: LBS
Supported Frequencies	: 850/900/1800/1900MHz
SIM Card	: 3V/1.8V
GPRS Mobile Station	: Class B
GPRS Multislot Class	: 12
Dimensions	: 110 mm x 87 mm x 33 mm. (including connectors).
Weight	: Approximately 93 g.
Environmental Rating	: Standard, indoor at an altitude of less than 2000 meters with non-condensing humidity.
Operating/Storage Temperature	: 0°C to +70°C / -30°C to +80°C
Operating/Storage Humidity	: 90 % max. (non-condensing)
Installation Over Volt. Category	: II Appliances, portable equipment
Pollution Degree	: II, Normal office or workplace, non conductive pollution
