

# Product SPECIFICATION SHEET

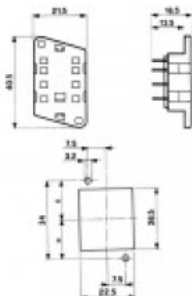

## ZMSP SERIES BASES

Solder socket for use with D Series double or four-pole miniature relays (model D2N & D4N). Ideally suited for rear mounted panel applications requiring 'plug-in' serviceability and maintenance. M3 screw mounting to fit panel cut-out.

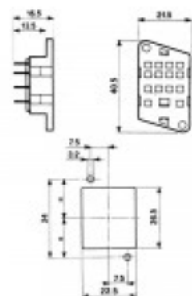

### Specification

|                                   |         |                         |
|-----------------------------------|---------|-------------------------|
| Rating                            |         | 10A - 250V AC           |
| Insulating resistance             |         | > 1,000 Mohm            |
| Dielectric strength               |         | 2 KV AC                 |
| Ambient temperature range         |         | - 40... + 70°C          |
| Dimensions                        |         | 40.5x21.5x13.5 mm       |
| Connections material              |         | tin plated bronze       |
| Body plastic                      |         | self-extinguishing PPEm |
| Self extinguishing classification | (UL 94) | V1                      |

ZM2SP - double-pole  
(for relays type D2N)

ZM4SP - four-pole  
(for relays type D4N)
